PROFILE

I am a self-taught and highly motivated web developer with a focus on front-end development. With a proven track record of delivering high-quality and efficient solutions. I have the ability to work both independently and as part of a team. I am highly organized, and detail-oriented, and have excellent problem-solving and communication skills. I am passionate about website development and take pride in creating visually appealing and user-friendly websites. My commitment to writing clean and efficient code and my natural curiosity drive me to continuously learn and improve my skills. I am confident that I can bring my technical expertise, passion, and problem-solving skills to positively impact any project.

Jan 2018 – May 2019

I accomplished some achievements across online classes by providing the ability to attend the classes online.

- Working in a multitasking system.
- Provide escalated customer support.
- Responded to customer complaints and resolved issues.
- Attracting potential customers by answering product and service questions, and suggesting information about other products and services.

Cairo, Egypt

PROGRAMMING EXPERTISE

Majesto Food

Oct 2022 – Nov 2022

This is a ReactJS app, an online food ordering service. The website offers a wide range of food options from various cuisines and allows customers to add their meals to the cart and modify them and ability to order their food online. The app has some simple validation to demonstrate more complex logic but is easy to use, making it a convenient and secure way to enjoy delicious food. Built with

- ReactJS
- Complex logic
- Firebase database
- GitHub pages
