

Ahmed Abdelsamie

Highly user-focused, detail-oriented developer with over 4 years experience. My expertise and passion lies in creating intuitive UX using modern technologies such as **Next.js, Prisma, Typescript, and TailwindCSS**. I have the ability to work both independently and as part of a team. Passionate about micro-frontends and looking for projects where I can implement and enhance their micro-frontends.

WORK EXPERIENCE

Freelancer — Remote — Frontend developer

2021 - Present

Tech Stack: Next.js, Typescript, Prisma, TailwindCSS, React-hook-form, Zod, Next-auth

- **Building** highly optimised websites with high SEO using SSG, SSR, ISR and, more recently, PPR (example: [shifaref](#))
- **Handling** everything from planning, wireframing, implementing UI/UX designs, testing, deploying, and ongoing support.
- **Consulting** with clients to understand their needs and offer solutions that fit their goals, helping them choose the right tools and strategies.

Prasoft — Kayseri, Turkey — Frontend developer

Jul 2023 - Jan 2024

(Integration and e-commerce)

Tech Stack: React.js, Javascript, Typescript, Bootstrap, CSS3

- **Enhanced** the main website and Prapazar by collaborating with UI/UX designers to implement user-friendly features and optimize the overall user experience.
- **Participated** in all development stages, including feature implementation, testing, and post-deployment monitoring, ensuring smooth and efficient deployment.
- **Collaborated** with cross-functional teams, including UI/UX designers and back-end developers, to deliver seamless user experiences and improve features that addressed business needs for diverse sectors such as hospitality and retail.
- **Improved** system performance by designing and implementing optimized API endpoints, which streamlined processes for suppliers, and significantly enhanced user interactions on the BigCommerce platform, contributing to an overall performance boost of approximately 20% - 30%.

Naviro — Dublin, Ireland — Frontend developer

July 2023 - Oct 2023

Remote

Tech Stack: Next.js, Typescript, TailwindCSS, React-hook-form, Zod, Autho

- **Developed** the entire front-end of an MVP project using Next.js, TypeScript, Tailwind CSS, Redux, and Autho based on Figma designs.
- **Built** responsive UI components and implemented core functionality to match design specifications, enhancing the overall user experience.
- **Collaborated** closely with back-end developers to integrate APIs, ensuring seamless communication between front-end and back-end systems.

Shoman Systems — Cairo, Egypt — Frontend developer

Jun 2020 - Jul 2023

(Software development and solutions)

Tech Stack: HTML5 & CSS3, Javascript, Bootstrap, jQuery

- **Developed and maintained** web applications, including SPC and Galaxy

Academy, using HTML, CSS, JavaScript, Bootstrap, and jQuery.

- **Played a key role** in feature implementation, code optimization, and ongoing maintenance to ensure the applications' functionality and performance.
- **Contributed** to the success of the development team by implementing key front-end optimizations and working closely with other developers.
- **Collaborated** with cross-functional teams to introduce new features and optimize existing ones, prioritizing user experience and front-end performance improvements for key applications like SPC and Galaxy Academy.
- **Improved** application performance by 30% through the conversion of legacy JavaScript code to jQuery, significantly enhancing the speed and efficiency of web applications and streamlining the user experience.

EDUCATION

Ain Shams University, Cairo, Egypt

Bachelor of Business Administration

Sep 2016 – Jun 2020

PROJECTS

Shifaref

[Shifaref](#) is a comprehensive wellness and health e-commerce platform that I developed to connect users with personalized health solutions, natural supplements, and expert wellness guidance.

Tech Stack: Next.js, TypeScript, Prisma, Tailwind CSS, Supabase, Next-auth

- **CMS with Tagging & Categorization:** Built a blog platform with read-time estimation, tags, and categorized content for wellness professionals to share educational articles.
- **Secure Role-Based Authentication:** Implemented multi-level authentication with role-based access control for admins and content managers, ensuring data privacy.
- **User Messaging System:** Developed a customer communication portal with message tracking, search, and read/unread status for efficient support.
- **Responsive Admin Dashboard:** Created an admin interface with light/dark mode, global search, and easy navigation for full platform management.

Doreyazilim

[Doreyazilim](#) is a professional web development company that I built to create modern, user-friendly e-commerce solutions and websites with a focus on SEO optimization, beautiful design, and support for multiple languages.

Tech Stack: Next.js, Typescript, TailwindCSS, React-hook-form, Next-auth, [next-intl](#) for localization

- **Custom ECommerce Development:** Built WooCommerce stores with tailored themes (e.g., *Urban Jungle*, *Organic Store*, *DNK Store*), helping clients grow without platform commission fees.
- **Analytics Dashboard:** Designed user-friendly dashboards to visualize site performance, making key metrics easy to understand and act on.
- **Responsive Web Design:** Delivered creative, mobile-first designs that strengthen brand identity and ensure seamless UX across devices.
- **E-Commerce Strategy Consulting:** Advised on platform selection, business models, and retention tactics to drive sustainable online growth.
