PROFESSIONAL SUMMARY

Frontend Engineer with 6+ years of experience building production-grade React and Next.js applications serving thousands of users. Specialized in micro-frontend architectures and performance optimization, achieving **90% deployment time reduction** and 30% performance improvements. Proven track record migrating legacy systems to modern architectures.

CORE COMPETENCIES

React & Next.js

TypeScript

Micro-Frontend Architecture

API Integration

CI/CD & Testing

UI/UX & Design Systems

WORK EXPERIENCE

Kayra Export

Aug 2025 - Present

Frontend Engineer

Kayseri, Turkey

- Architected and led migration from monolithic frontend to micro-frontend architecture using Webpack Module Federation, decomposing application into **6 autonomous modules**
- Reduced CI/CD pipeline time by **90%** (16 minutes to 1.5 minutes) through optimized build configuration, isolated deployments, and parallel bundling strategies
- Designed and implemented shared component library with **50+ reusable components** using shadcn/ui and Tailwind CSS, reducing code duplication by 40% across 4 micro-frontends
- Established comprehensive E2E testing suite using Playwright, achieving 85% test coverage and reducing production bugs by **60%**
- Collaborated with 3 cross-functional teams (backend, product, design) to ensure seamless API integration and consistent user experience across all modules

Prasoft

Jul 2023 - Jul 2025

Frontend Developer

Kayseri, Turkey

- Developed and optimized user interfaces for an e-commerce platform serving suppliers and vendors across Turkey
- Optimized API interaction patterns and implemented caching strategies, reducing average page load time by **30%** (3.2s to 2.2s) and improving Core Web Vitals scores
- Implemented error handling patterns and API retry logic that reduced user-facing errors by 25%
- Participated in full development lifecycle including code reviews, unit testing, and production deployments

Naviro

Jul 2023 - Oct 2023

Frontend Developer (concurrent remote contract)

Remote (Dublin, Ireland)

- Delivered production-ready MVP frontend in a 3-month remote contract alongside the onsite Prasoft role, using Next.js and TypeScript, translating Figma designs into **pixel-perfect responsive components**
- Implemented secure authentication flows using JWT and NextAuth.js, with role-based access control
- Built complex multi-step form handling with real-time validation, integrating backend API endpoints

Shoman Systems

Jun 2020 - Jul 2023

Frontend Developer

Cairo, Egypt

- Refactored legacy jQuery codebase to modern React architecture, improving maintainability and reducing average bug-fix time by **50%**

- Developed and maintained 5+ enterprise web applications for education and training platforms
- Implemented responsive design patterns ensuring **100% mobile compatibility** across devices (tablets accounted for 40% of platform traffic)
- Mentored 2 junior developers on React.js, code review processes, and Git workflows

PROJECTS

Shifaref

Wellness/health e-commerce platform with a CMS blog, role-based auth, and a customer messaging portal.

Next.js, TypeScript, Prisma, Tailwind CSS, Supabase

Doreyazilim

Multi-language e-commerce and web development agency site with an analytics dashboard for clients.

Next.js, TypeScript, Tailwind CSS, next-intl

EDUCATION

Bachelor of Business Administration [Ain Shams University](#)

2020

Cairo, Egypt

CERTIFICATIONS

Web Development Bootcamp
