👤 PROFILE

Frontend developer with more than 3 years of experience more focused on UX and user interactions using the latest modern technology such as **Next.js**, **Typescript**, and **React**.

💼 EXPERIENCE

Prasoft

Frontend developer

07/2023 – present | Turkey

In my current role, I enhance the main website and **Prapazar**  web app, collaborating with UI/UX designers. I'm also building a new BigCommerce app for suppliers in sectors like hotels and restaurants, working with back-end developers on API endpoints. I refine and estimate features and user journeys for both projects.

Shoman systems

Frontend developer

2020 – 2023 | Cairo, Egypt

I have a strong skill set in designing, developing, and maintaining web apps using HTML, CSS, JavaScript, Bootstrap, and jQuery. I've made significant contributions to projects like **SPC-eg.com** , and **Galaxy academy**  showcasing my proficiency in creating visually appealing and user-friendly interfaces.

📁 PROJECTS

Naviro

2023 – 2023

An impactful app developed on MVP architecture, Naviro empowers businesses with advanced features such as content strategy creation utilizing AI, post-scheduling, media uploading, and dynamic business management.

Stack: Typescript, Next.js, Redux, and Autho

Wanderly

2023 – 2023

An impressive travel web app featuring an intuitive UI for seamless hotel and flight searches, offering user-friendly features such as recent search history, responsiveness UI, and favorite destinations with filters and more features and responsiveness.

stack: Javascript, React.js, React-router, Redux, and Autho

🎓 EDUCATION

Business Administration

Ain Shams University

09/2016 – 06/2020
