

Ahmed Abdelsamie

Full-stack developer

✉ Ahmedtakeshy7@gmail.com 🔗 Portfolio 🐙 Github ☎ 05511645796 🔗 LinkedIn

Profile

I am a full-stack developer with over 3 years of experience specializing in front-end development and more than a year in full-stack roles. My expertise lies in creating intuitive user interactions using modern technologies such as **Next.js**, **Prisma**, **Typescript**, and **TailwindCSS** and highly motivated web developer with a focus on front-end development. I have the ability to work both independently and as part of a team. I am highly organized, and detail-oriented. I am passionate about web apps development and learning new technology or tools making me so excited.

Skills

Prisma ORM: Proficient in Prisma ORM 🔗 for database management, enabling efficient interaction with PostgreSQL and other relational databases. Skilled in modeling complex data schemas, managing migrations, and optimizing database queries with Prisma's intuitive syntax and powerful query engine. Integrated Prisma with Next.js to streamline full-stack development and ensure smooth database operations, including handling relationships and constraints.

Next.js: Expert in Next.js 🔗 , leveraging its features like Server-Side Rendering (SSR), Static Site Generation (SSG), and API routes to build efficient, scalable, and SEO-friendly full-stack web applications. Also integrating Next.js with databases, authentication systems.

RESTful API: Skilled in designing and implementing RESTful APIs for seamless communication between frontend and backend systems.

Web Technologies: Proficient in HTML5, CSS3, JavaScript, Typescript, React.Js, Next.Js, Prisma, Tailwind CSS, and Bootstrap for creating responsive and interactive user interfaces.

Design Principles: Knowledgeable in SOLID and DRY principles for writing clean, maintainable, and scalable code.

Agile Methodology: Proficient in Agile methodologies, including Scrum, ensuring efficient project management and collaboration.

Unit Testing: Experienced in writing unit tests to ensure code quality, reliability, and maintainability.

Version Control: Proficient in Git for version control, ensuring efficient and collaborative development workflows.

Problem-Solving and Debugging: Excellent problem-solving skills and adept at debugging to resolve complex issues efficiently.

Experience

Freelancer

2023 – present

In addition to my professional experience, I am actively working as a freelancer, collaborating with clients on various web development projects. I apply my expertise in full-stack technologies such as Next.js, Prisma, and TailwindCSS to build responsive, high-performance websites and applications.

Frontend developer

Prasoft

07/2023 – 01/2024
Turkey

In my role, I enhanced the main website and **Prapazar** web app, working closely with UI/UX designers to implement user-friendly features and optimize the overall user experience. Additionally, I collaborated with back-end developers on a new BigCommerce app for suppliers in sectors such as hotels and restaurants, where I contributed to designing and implementing API endpoints. This experience not only strengthened my front-end and full-stack development skills but also deepened my collaboration with cross-functional teams.

Frontend developer

Shoman systems

2020 – 2023
Cairo, Egypt

I began my career as a junior frontend developer, where I developed and maintained web applications using HTML, CSS, JavaScript, Bootstrap, and jQuery. I contributed significantly to projects such as **SPC**, and **Galaxy Academy**, implementing key features and optimizations. One of my notable achievements was converting legacy JavaScript code to jQuery, **resulting in a 30% improvement in application performance and overall optimization**. This role honed my problem-solving skills and allowed me to make a measurable impact on the efficiency of the applications.

Projects

Power Gym

2024 – 2024

- Power Gym is a fitness application has a management dashboard
- Admins can add and remove clients.
 - Each client has **active and expired membership** data.
 - Ability to add expenses and track income, **app calculates total clients, income, and revenue for each month**.
 - Receive emails from clients via contact form.
 - Super admins can leave notes for admins.

HorReCa

2024 – 2024

- Horeca is an e-commerce application
- Persistent Wishlist and Cart: **Wishlist and cart data remain, user data is stored in the database** upon sign-in for seamless continuity.
 - Sorting and Filtering: **Products can be sorted and filtered based on various criteria** for a nice shopping experience.
